Career objective

Intending to build a career with an organization where I can apply my theoretical, logical, and technical skills in a practical, real-life environment alongside committed and dedicated individuals. This experience will enable me to explore my potential, fully utilize my training and skills, and make a significant contribution to the success of the company."

Project Details

GymHub (Gym management system)

Platform used :

- Frontend technologies : HTML, CSS, Bootstrap, reactJS.
- Backend technologies : java, Springboot, MySQL database.
- This is a Portal for Gym members to register and get service through it.
- It is a simple interface that works on Smart Devices.
- The one of the main goals of this project is to eliminate the Paperwork and provide an efficient and robust alternative method to save the details of all gym members.
- It is a website that allows Gym members like Customers, admin, Trainer to use free and paid services.

Certifications
